PROFESSIONAL SUMMARY

Full Stack Web Developer with hands-on experience in Laravel, PHP, MySQL, JavaScript, React, and Vue.js. Built ERP, inventory, and courier management systems from backend to frontend, covering REST APIs, authentication, role-based access control, database design, and dashboards. Uses AI coding assistants in daily development to write, debug, and document code faster, while reviewing every result for quality and security. Eager to learn, improve skills, and contribute to a development team while gaining professional experience.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, Bootstrap, JavaScript, jQuery, React, Vue.js
Backend	PHP, Laravel
Database	MySQL
API & Security	REST API Development, Authentication, Role-Based Access Control (RBAC)
Other Skills	Dashboard Development, Reporting, ERP Modules, CRUD Operations
AI & Productivity	AI-Assisted Development, Prompt Writing, Debugging & Documentation with AI, AI API Basics

AI-ASSISTED DEVELOPMENT

- Use AI coding assistants for boilerplate, debugging, and refactoring in Laravel, PHP, and React projects, and review every result before using it.
- Write clear, structured prompts to generate code snippets, UI copy, and technical documentation.
- Use AI to understand error messages, learn new libraries faster, and compare implementation approaches.
- Exploring how to add simple AI features to web applications through APIs.

PROFESSIONAL EXPERIENCE & PROJECTS

1. Courier Management ERP System (Laravel) & (Vue.JS)

May 2025 – July 2025

Laravel, Vue.JS, MySQL, JavaScript

- Developed complete backend and frontend independently using Laravel.
- Designed and implemented modules including Sender, Parcel, Branch, Vehicle, Shipment, Receiver, Invoice, Tracking, and Reports.
- Built secure REST APIs with authentication and role-based access control.
- Implemented dynamic cart system with real-time calculations.
- Created admin dashboards with reports and analytics for business monitoring.

2. Grocery Management System (React.JS)

July 2025 – August 2025

React.JS, MySQL, JavaScript

- Developed inventory, sales, purchase, stock, customer, and accounting modules.

- Implemented role-wise access control and secure API structure.
- Built interactive dashboards and reports for real-time data analysis.
- Improved system reliability through clean architecture and optimized queries.

3. Grocery Management System (Core PHP)

July 2025 – August 2025

PHP, MySQL, JavaScript, Bootstrap

- Designed and developed a complete grocery ERP system using Core PHP.
- Implemented purchase, sales, inventory, and accounting workflows.
- Integrated user role management for secure access.
- Optimized data flow to improve system performance and usability.

PROFESSIONAL TRAINING

Web Application Development with Laravel

788 Hours

Covered Technologies: HTML, CSS3, Bootstrap, JavaScript, PHP, MySQL, jQuery, WordPress, React, Vue.js, Laravel

EDUCATION

MBA in Management	Mirpur College, National University	CGPA: 2.63 / 4.00	2018
Honours in Management	Hazrat Shah Ali Mahila Degree College	CGPA: 3.00 / 4.00	2017
HSC (Business Studies)	Dhaka Board	GPA: 3.90 / 5.00	2012
SSC (Business Studies)	Dhaka Board	GPA: 4.25 / 5.00	2010
